# ABOUT

---

Founded in **2020**, PLOP is a label dedicated to fostering self identity through **bold** and **timeless fashion**.

We champion the concept of **self-representation**, fostering a space where individuals can embrace their authentic selves and cultivate **confidence** in their own skin.

As a multi-label store, **boundaries**  **transcends traditional fashion** by curating a collection from independent designers around the world.

We believe fashion should be an **extension of your unique identity**, empowering you to express yourself beyond conventional norms. We are committed to fostering a community that thrives on the rich tapestry of human expression.
